APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

War Predicted.

The news received in Washington yesterday from Algeciras is by no means encouraging of a speedy and harmonious result. It is complained that the German representatives are not acting in absolute good faith and that the propositions which they bring forward from time to time are merely for effect, as it is known to the Germans themselves that they must prove obnoxious to the French delegates to the conference.

The French delegates display, according to the advices received in Washington, an almost equally unyielding spirit, and it would not be surprising if the conference adjourned before long, leaving the vexed Moroccan question in such a delicate position that hostilities between the continental powers might result.

The German Ambassador, Baron Sternburg, and the French Ambassador, M. Jusserand, called on Secretary Root, yesterday, at short intervals, but no information was given as to any news they might have received from Algeciras.

It is intimated that the failure of the conference is expected by Germany, and, indeed, not unsought, and that the German government is perfectly willing to make the Moroccan question the pretext for another war with France, believing that the conflict is inevitable and irrespressible, and that the German army and conditions generally in the empire are now better adapted for the final struggle than they ever will be again

While other neutral powers will no doubt continue efforts to bring Germany and France together, the United States government will maintain its policy of non-interference in so delicate a controversy.

A dispatch from London says that Reuter's Telegram Company is informed that King Edward will shortly meet Emperor William at sea or at some port. The announcement, however, is unofficial.

Beaten to Death in Prize Ring.

Harry Tenny, who was knocked out in San Francisco Wednesday night by Frankie Neil, the bantam champion pugilist, died yesterday, as was stated in the Gazette. Death undoubtedly was the result of the beating Tenny received in the ring. From the time he was carried from his corner, limp and all but lifeless, Tenny sank rapidly. Physicians who remained at the bedside realized his desperate condition, and gave warning that death might be expected if the fighter could not be resuscitated within a short time. Tenny went down before Neil's hard left-hand blows during the fourteenth round, falling near the center of the ring. The timekeeper counted him out, but in the noise of shouting Referee Roche did not hear the completion of the count, and when Tenny staggered to his feet allowed the fight to proceed.

A howl of derision greeted the referee's ruling, but it was soon ended, for Neil went at his opponent like a madman, and hammered him in his weakened condition against the ropes. Helpless and without strength to strike a blow in return, Tenny dropped against the ropes. His head sank on his chest and his arms dropped to his sides. In this position Tenny was literally beaten to the floor by Neil and was counted out by the referees. He was carried to his dressing-room. When he was revived an hour later he complained of pains in his body, which he ascribed to the terrific blows with which Neil had reached his stomach. Later the defeated man was removed to the bathhouse, where he grew worse until death ended his sufferings.

Tenney's death is the second resulting from ring contests there within a month. On the night of February 5 Alec Doevin was beaten to death by "Chief" Johnson in an unlicensed amateur fight at Colma.

To Legalize Lynching.

State Senator McLaurin, of Mississippi, has introduced a bill, which the members of the legislature are said to view favorably, and which, if passed, will virtually legalize the crime of lynching in that State. The vital sections of the proposed act are as follows:

"That the killing of a human being by a mob or collection of persons to avenge a crime, shall be lynching and not murder, nor assault with intent to murder; that when any one is convicted of lynching the trial jury, on finding him guilty, shall prescribe the penalty for same, to be imposed by the court, and no other punishment than that fixed by the trial jury shall be inflicted upon any one convicted of lynching. On the trial of anyone for lynching evidence relative to the crime for which the person was lynched introduced by the defense shall be admissible and competent.

By thus placing the punishment for lynching wholly within the trial jury's discretion, and at the same time admitting the crime already committed as a point for the defense, lynching would be just the same as legal, for no trial jury would ever convict for more than a light fine, at most, and even that is doubtful.

Consults A Physician
But does NOT Tell Him All.
Few women confide fully in a physician. They simply *will* not tell him all. That's why many doctors fail to cure female diseases.

Every woman dreads the ordeal of the physician's consulting room. A sensitive, refined woman shrinks from the searching questions and the physical examination.

It is not so in writing to Mrs. Pinkham. Thousands of women owe their present health and happiness (yes, and their good looks, too) to the fact that they have *told all* their physical troubles to Mrs. Pinkham and followed her advice and been cured of female diseases.

Lydia E. Pinkham's Vegetable Compound

Cures more women every year than any other medicine in the world. If you are in doubt about your case, write in perfect confidence to Mrs. Pinkham, Lynn, Mass. You will receive in reply a personal letter of advice free. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction, and since her decease, she has been advising sick women free of charge.

DEAR MRS. PINKHAM:—For three months I was sick in bed with female trouble and had four doctors, who all agreed that I must undergo an operation. My sister advised me to try Lydia E. Pinkham's Vegetable Compound before I submitted to an operation. I did so and am very glad to say that after I had used five bottles I was restored to perfect health, which I have enjoyed ever since. I am only too glad to recommend your medicines, as they saved me from an operation which might have proved fatal.

MRS. M. KUTTNER,
556 South Main St., Los Angeles, Cal.

Mrs. Hayes also profited by Mrs. Pinkham's advice.

DEAR MRS. PINKHAM:—Sometime ago I wrote you describing my symptoms (fibroid tumor) and asked your advice. You replied and I followed all your directions carefully and to-day am a well woman.

22 Ruggles St., Roxbury, Mass. MRS. E. F. HAYES.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbus O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a complete cure followed." Best health Tonic on earth. 50c. Guaranteed by E. S. Leadbeater & Sons, druggists.

Champion Liniment for Rheumatism

Chas. Drake, a mail carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by Gibson & Timberman and W. F Creighton & Co.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING, MARCH 2, 1906.

GRAVE apprehensions as to the outcome of the Moroccan conference are expressed in diplomatic circles. Dispatches from the principal European capitals show that no little anxiety prevails over the uncertainty of Germany's action. It is believed by some in positions to know that it is the purpose of the Kaiser to attack France at an early day, and that he will in some way thwart the endeavors now being made to bring about an understanding between Germany and France. A conflict between these two great powers would be a dire calamity and far-reaching, many believing it would cause friction between other nations and possibly clashes of arms. Germany and France have much at stake. The maritime interests of both would suffer untold damage by a war, and it would take years to recuperate from the setback they would receive. It seems that German trade is already suffering from the war spirit which is now in the air. The Berlin Confectionair, the principal dry goods journal, says:

The German firms complain bitterly of bad business with France. Commercial travelers were unable to book orders because of the political feeling. Representatives of a famous Berlin house, who have been traveling for twenty years in southern France, have not got any orders this season in spite of the friendly relations which exist between them and their customers. The French merchants say that it is not wise to store goods shortly before an outbreak of war.

ELSEWHERE in the Gazette will be found an account of a fatal prize fight in San Francisco Wednesday in which Harry Tenny was killed by Frankie Neil. The brutality displayed on the part of the victor in pummeling his helpless victim to death is sickening in its details. The already vanquished man, by a decision of the referee, was again made to face his antagonist and become his target. Tenny, knocked completely out, held to the ropes in the fourteenth round until literally hammered down by Neil. A night of terrible agony followed, during which restoratives proved unavailing to Tenny. The victor and others are properly charged with manslaughter. This is the second instance in a short space of time in which prize-fighters have died in San Francisco from injuries received in the prize ring, and it is high time something was being done toward stopping such brutal and dangerous pastimes.

THE DREAMS of the optimists as to the result of the Hague Peace Conference have proven to be illusions. Instead of a period of tranquility which, it was supposed, would be in evidence, war has followed war, while rumors of war are every-day incidents. In introducing the navy estimates in the British House of Commons yesterday Financial Secretary of the Admiralty Robertson commented on the fact that since The Hague Peace Conference the naval expenditures of the great powers had increased 50 per cent. reaching the enormous total of $507,500,000.

THE enormous cost of conducting the affairs of the State, was shown yesterday in the legislaivte proceedings published in the Gazette of that day when it was stated that the appropriation bill for the next year would amount to $8,400,000, an increase of $1,066,000 over that of the previous years. But the people "pay the freight." Is there any wonder that most of them dread a session of the legislature and are glad when it is over?

PRESIDENT ROOSEVELT is said to be ready to compromise on the railway rate bill in order to placate the republican leaders and reunite his party. This is but another instance of the President's side stepping, though no reasonable man can object to a provision in the bill which would allow the railroads to appeal.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, March 2.

It is understood the President has promised to appoint Mr. Paul Portner, of Prince William county to a consulship in northern Germany. Mr. Portner is the son of the wealthy brewer, whose plant is in Alexandria, and whose home at Manassas, is one of the handsomest in Virginia. It is also reported that the President has promised Mr. W. P. Kent of Virginia, a foreign mission. Mr. Kent is a son of the late Lieutenant Governor Kent, of Virginia, and was a candidate for the lieutenant governorship on the republican ticket in Virginia last fall.

President Roosevelt's attitude on rate legislation is still a matter of argument between perfectly sincere republicans and administration supporters who have equal opportunities to acquire accurate information from headquarters Within the last day or two a number of his friends have started out to elucidate his position in order to set at rest the conflicting rumors which have been set afloat and which charge him with "vacillating," "taking water" and "changing front." One of his friends said today: "There can be no misconception of what the President wants. His demand from Congress may be epitomized in one sentence—an effective rate bill containing the minimum grounds for court review which will hold water in the Supreme Court. If the President were certain that the Hepburn bill as it stands would stand up in the Supreme Court, he would be against any amendments, but as he has been assured by his friends that it is very likely to fail if it contains no provisions for court review, he is willing to have them inserted to save the measure at its final test. The President is willing to have three amendments incorporated in the Hepburn bill which will provide in substance, first, for the fixing by the commission of the dates on which its new rates shall go into effect; second, that the railroad companies shall deposit in court in cash the difference between the new commission rates and the old schedules pending a stay granted by the court; third, the grounds for court review—to be limited to two—whether the commission has exceeded its authority, or whether the new rate fixed by the commission is in whole or in part confiscatory. There are a number of other amendments proposed which the President would not object to have inserted in the measure if their adoption would not lose for it the support of Senators Dolliver, Clapp and other friends of the bill who are bitterly opposed to amending it at all. The President is hopeful that they will agree to the three amendments noted above."

"If the Senate shall pass the Hepburn bill amended in accordance with President Roosevelt's concessions," said democratic floor leader Williams, of Mississippi, today, "I don't believe there would be any objection to it on the part of House democrats. I rather think that the amendments proposed materially strengthen the bill, and place it practically on all fours with the Davey bill which democrats preferred to the Hepburn bill. The only question arising is the use of terms. The President speaks about a court review. A review opens up questions of fact, which is not intended. The word to be used should be 'appeal' and not 'review'".

A special meeting of the Senate committee on the Philippines was held today to take action on the bill which proposes to let Philippine sugar, tobacco and rice come into the United States at 25 per cent. of the Dingley rates. At present they are taxed 75 per cent. The bill proposes free trade in all other articles and the removal of the entire tax on those three products after three years. The bill has been vigorously advocated by Secretary of War Taft and officers of the Insular Bureau. The Senate committee defeated the bill, by a vote of 8 to 5, refusing to report it favorably to the Senate. This is the first of President Roosevelt's pet measures to receive a death blow in the Senate. The result was a considerable surprise to Senator Lodge.

President Roosevelt this morning promised to give a lectern to old Bruton Parish Church at Williamsburg, Va., to hold the Bible presented to the house of worship by King Edward of England. The King gave the Bible to H. St. George Tucker, president of the Jamestown Exposition, upon the occasion of the latter's recent visit abroad. Mr. Tucker was at the White House this morning and happening to mention the fact that the King had presented the Bible to the church, the President said that he would be glad to give the edifice a lectern upon which the book may be placed. Old Bruton Church is the successor to the original church at Jamestown.

John W. Babson, chief of the Issue and Gazette Division of the Patent Office, died suddenly yesterday at his home in this city.

The wordy warefare between Senator Morgan and William Nelson Cromwell, continued this morning before the Senate canal committee. The Senator asked a great many questions in connection with the letter of Mr. Cromwell to Secretary Hay, dated December 5, 1898, and the enclosure to which it referred. The witness refused to answer, saying that the correspondence spoke for itself.

Fifty-ninth Congress.

Washington, March 1.

SENATE.

The Senate today took up the bill providing for closing the affairs of the Five Civilized Tribes. The vote was on the amendment offered by Mr. Lafollette providing that no railway company shall acquire any right, title or interest in coal or asphalt lands in Indian Territory, and requiring that deeds of conveyance to the mineral lands must specify that no railroad corporation or officer or stock-holder in any common carrier engaged in transporting coal from said lands shall ever acquire an interest in them.

Mr Clapp declared that the recent adoption by Congress of a resolution postponing the sale of those mineral lands for five years made the Lafollette amendment unnecessary.

Mr. Teller favored prohibiting railway officers from owning the mineral lands but objected to including stockholders in the inhibition.

HOUSE.

The House today considered private claims bills.

Engineer M. A. Perkins was killed by a runaway freight on the Loop Creek branch of the Chesapeake & Ohio Railway near Hinton, W. Va., this morning. The two engines and four cars ran wild for three miles and struck twenty empties at Thurmond. The others of the crew jumped and all sustained bruises. The engines were demolished and thirteen cars of coal were wrecked. The air brakes failed to work.

Mr. Smith, of Pennslyvania, introduced a joint resolution in the House yesterday for the repeal of the second section of the fourteenth amendment to the constitution of the United States in Congress in case they limit the rights of citizens to vote. He testified that when Major Lanier informed him about the organization of the Virginia Corporation Company, he told Lanier that the company would be useful to the commission and that Lanier had a right to organize it. He subscribed $100 to the stock of the company. He said he did not give the matter much thought at the time. He declared, however, that while knew that Mr. Lanier was getting up the company, he was not aware of the part Mr. Lanier was taking in the work of the company.

THE LEGISLATURE.

SENATE.

Senator Strode made an effort in the Senate yesterday for free tuition at the University of Virginia, which, he contends, is what the State intended when the university was added to the State school system by reason of an annual appropriation. When the item was reached in the appropriation bill in regard to the university Mr. Strode offered the following amendment:

"Upon the condition that the university shall give instruction to properly prepared white students from Virginia without charge for tuition or university fee in the academic department."

He declared that the fee of $40 restricted the attendance. Senator Thomas also contended that the tuition should be free. Senator Chapman expressed a wish that the fees might be eliminated, but did not think the university could be sustained without them.

A letter was read from President Alderman, who favored a reduction of the fees, but declared that they were necessary in view of the expense of the university. Senator Mann supported the Strode resolution. An amendment offered by Senator Shackelford, placing the tuition fee at $10, and retaining the present contingent fee of $10, was finally adopted and the university appropriation was then passed.

The committee on privileges and elections of the Senate reported favorably the bill of Senator Hobbs, of Prince George, providing for the election of one-half of the Senate every two years, thus adopting the old plan of hold-over senators. It requires an amendment to the constitution.

Senator Saddler, made an effort to call up the bill increasing the pay of members of the legislature. The bill provides for double the present pay of the members, giving senators and delegates $8 a day and the presiding officers $12 a day. The bill went over.

The Senate committee on courts of justice yesterday reported favorably the bill offered by Judge Phlegar, limiting the operation of voting trusts, and also the substitute offered by Senator Sears, but with the recommendation that it do not pass.

HOUSE.

The first of the four companion road bills, of which Lassiter, in the Senate, and Withers, in the House, are patrons, came up as a special order in the House and passed. The vote was 65 to 26 The bill establishes a state highway commission, defines the salary and duty of the commissioner and authorizes him to call engineers to his aid.

Mr. Massie's resolution providing for the purchase of the Jefferson Davis house, in order to extend the area of Capitol Square, was voted down, it being contended that the State did not have the money at this time for that purpose.

The Senate bill providing for the issuance of county bonds for permanent road improvement came up on its third reading and was adopted.

The House finance committee yesterday heard further argument on the Richmond, Fredericksburg and Potomac Railroad bill. The committee will go into executive session today, to further discuss the matter and reach a vote. Their report will probably be made to the House today.

The House has passed the Houston bill establishing the Virginia State school for colored deaf and blind children.

The House committee on Chesapeake Bay and its tributaries has voted down the minority report of the Virginia delegation in the recent oyster conference with representatives of the Maryland legislature. The delegation was divided on the question of closing the Potomac river for two years. This minority report favored closing. The action of the committee practically makes it certain that there will be no such law enacted in the present Virginia legislature.

The House has passed a bill prohibiting expectorating or spitting in public places, buildings, theatres, railways and street cars, and making it the duty of the owner or lessee of every theatre, public hall or building to provide the same with a sufficient number of spittoons or cuspidors.

Pressure is being brought to bear on Governor Swanson and his declared opposition to an extra session. The advocates of an extra session are restless and are working on the members to secure a majority for the extra session. Delegate Curlett, who is leading the movement, was in conference with the Governor yesterday, and suggested that he call another session immediately after the close of the present one next week. The Governor declared himself opposed to an extra session, but if the legislature deemed an extra session absolutely necessary to the welfare of the State, he would be guided by the lawmakers. The opposition is strong, and it is hoped and believed a majority can not be secured to prolong the session.

The report in the Clowes-Foster case will, it is understood, be offered in the Senate today. It is said the report will recommend that Mr. Clowes be not confirmed, the reason assigned being that, aside from his qualifications, the inquiry has resulted in the impairment of his usefulness as a member of the board of directors of the Eastern State Hospital. The report will, it is said, declare that Mr. Clowes is a suitable person, but on the ground above stated it will recommend that he be not confirmed.

Hazing.

Representative Rixey, of Virginia, introduced in the House yesterday a bill in regard to hazing at the Naval Academy, and declared hazing "an offense against good order and discipliae and a violation and breach of the rules." It provides that no cadet charged with hazing shall be dismissed except upon conviction by a courtmartial, and the findings and sentence of which shall be subject to review by the convening authority and the Secretary of the Navy. It also provides that upon conviction the offender may be dismissed from the academy or made to suffer such lesser penalty as may be deemed proper and adequate. The bill further provides that no cadet dismissed for hazing shall be eligible for reappointment.

COURT OF APPEALS.

In the Court of Appeals yesterday a decision was rendered in the case of Redwood and others vs. Rogers and others, which is another litigation growing out of the conflict between the Fisher and Gould interests. The case comes from the Hustings Court of the city of Petersburg, where the decree of the court was in favor of Fisher, Davis and Rogers. Upon the appeal of Redwood and others the court, being of opinion that the charge of fraud was not established, affirms the decision of the lower court. The contention of the appellants, in brief, was that they are holders of $640,000 of the bonds of the South Side Railway and Development Company, which were legally issued; and their effort is to require the cancellation of the $360,000 of bonds of the same company held by the appellee, which, it is claimed, were illegally issued to the injury and waste of the security for the bonds of the appellants.

The case of the Norfolk and Western Railway Company vs. the Tidewater Railway Company, from the State Corporation Commission, which has been fought out by the respective companies from beginning to end, was decided in favor of the Tidewater Railway Company.

The court affirmed the decision of the Corporation Court, of Fredericksburg, in the Standard Oil Company vs. City of Fredericksburg. The case grew out of the refusal of the Standard Oil Company to pay the license of $150,000 imposed upon it. The amount involved was for three years' license.

Rioters Fined.

Guarded by two companies of the Third Regiment, the prisoners, Edward Dean and Preston Ladd, were taken to Springfield, Ohio, yesterday to the City Hospital to be identified by Martin Davis, the wounded brakeman. Davis, the wounded brakeman, identified Edward Dean, but failed to identify Ladd. When the identification of Dean as the assailant of Brakeman Davis became known, murmuring was renewed. The police of Springfield learned of threats made against one or two factories employing colored labor, and a number of appeals have been made from various sections for protection. Threats also have been made against Police Judge Millet's residence, and he has refused to accept protection.

Twenty-five rioters were arraigned in police court yesterday morning. Sixteen were charged with rioting, four of whom had the additional charge of carrying concealed weapons. These four were each fined $200 and costs and sent to the Xenia workhouse until the fine and costs are paid. Those charged with disorderly conduct were fined $50 and costs.

TELEGRAPHIC BREVITIES.

Land officers of the government, in San Francisco, are investigating what promises to become a new public land fraud of great proportions. It is alleged that one man in two years has made a fortune of $300,000 in this illegal way.

A package containing $1,900 was stolen from the safe of the Adams Express Company at the railroad station at Springfield, Mass., this morning. The police have a suspect under arrest, but refuse to give out any information in regard to the robbery.

The Gibson Pictures.

The Gibson picture habit has been fastened on a big proportion of the reading population of this section by the publication by the Philadelphia Sunday North American of ten of the latest of this great American artist's pictures as art supplements. It has started the Gibson collection fad, and this promises to last until the last of the pictures are out.

There was a time when the Gibson girl was the idol of the young woman. Now the Gibson art supplement gives everybody an opportunity to collect the artist's works.

The picture which the North American is to issue next Sunday is "A Castle in the Air."

Today's Telegraphic News

The Disorders in Springfield.

Springfield, O., March 2.—Two small incendiary fires, one shooting affray, which caused a riot call, the assault of a soldier, the arrest of his alleged assailant, and the organization of a law and an order league to restore this city to respectability and decency, are the events which marked the third night of the carnival of crime here. The situation is rapidly becoming better and after today four companies of eight of the state guard will be withdrawn. Four companies will remain on duty until all danger is past. The purposed law, now pending in the legislature, to increase the liquor tax to $1,000 and amending the city ordinance to remove screens from saloons after the closing hour, were favored. It was declared that the "lid" should be put on tight, and that Sunday observance laws be enforced. Mark M. Davis, the railroader whose shooting by negroes caused the riots, is alive, but very weak, at the city hospital.

Columbus, O. March 2.—Governor Pattison will place Springfield under martial law if Mayor Todd yields to the pressure being brought to bear to allow the saloons to reopen. Either this or the troops will be summarily withdrawn, leaving the civil authorities to take the responsibilty for the consequences.

The Miners' Demand.

New York, March 2.—John Mitchell, president of the Miners' Union, and the committee of seven are waiting the word today calling them to Washington for a conference with President Roosevelt on the situation in the anthracite fields. Several members of the committee left for their homes yesterday morning, but when Mr. Mitchell heard that George F. Baer, president of the Reading Company, had gone quietly to Washington, he telegraphed the absent committee to return to this city at once. Mr. Mitchell said that he desired to have the committee available in case President Roosevelt requested a conference. President Roosevelt, it is known, has been kept informed of every move and intimately acquainted with every detail of the situation. President Mitchell is somewhat worried because he has received no communication from Mr. Baer acknowledging the receipt of the demands. W. H. Truesdale, president of the Lackawanna railroad, intimated today, that there would be no meeting of the operators to consider the miners' demands until next week.

Terrible Explosion.

Lancaster, Pa., March 2.—A magazine stored with one hundred tons of powder and dynamite, belonging to H. H. Kerbaugh & Co., railroad contractors, and located near Safe Harbor, exploded this morning. The explosion was terrific, and was heard all over a large portion of the country. The damage to buildings in the vicinity is heavy. In this city, twelve miles distant, houses shook at if by earthquake and citizens rushed from their homes in dread. The cause of the explosion is unknown and is being investigated. The magazine was located in a deserted spot, which saved the loss of life. The dismembered body of James Sweeney, a watchman, has been found some distance from the scene. He was the only person who might have shed light on the cause of the explosion. The company officials have a theory that the building was deliberately fired and that Sweeney was fleeing when he met death.

Fire in a Hotel.

Chicago March 2.—Two hundred and fifty guests of the Parkdale Hotel were awakened by the yells of bell boys and the smell of smoke at 5:30 o'clock this morning, and when they left their rooms, they found the halls of the five story brick structure filled with smoke and the centre of the building in flames. Escape by means of the stairways was cut off and fire escapes furnished the only means of exit until the fire department arrived and ladders were placed at the windows. No person was overcome by smoke or burned, according to the police reports, but many thrilling rescues were made.

President McCall's Will.

New York, March 2.—The will of John A. McCall, late President of the New York Life Insurance Company, was filed for probate today. The will, which is very short, and dated February 17, last, leaves the entire estate to his widow, Mary I. McCall, and she is appointed sole executrix. The petition accompanying the document states that the value of the real estate is over $10,000, and the value of the personal property is the same.

Negro Assailant Executed.

New Russian Loan.

London, March 2.—The correspondent of the Exchange Telegraph Company at St. Petersburg wires that M. Vyssnegradzky, director of the International Bank, has gone to Paris for the purpose of negotiating a new Russian loan.

New York Stock Market.

New York, March 2.—Price movements on the stock exchange during the first hour were irregular. A fairly strong opening was followed in some cases by further gains, while at the same time other stocks developed extreme weakness and sustained material losses. Toward the end of the hour the weakness extended all through the list, and those stocks which had made early gains lost the advances made in the first few minutes.

Still Probing the Mystery.

Mayor Paff and Commonwealth's Attorney Brent are still hard at work in endeavoring to solve the Curtin murder mystery, and they are sanguine of eventual success. They are accumulating facts daily which tend to strengthen the lines upon which they are working, making it more and more likely that they are on the track of the murderers. Their discoveries, of course, are not as yet public property, but at the examination of the case next Tuesday in the Police Court the law officers believe they will be in a position to show that their still hunt is not devoid of fruit. Nothing, so far as can be learned, has developed to weaken the theory upon which they are acting, and there is every reason to believe that the details of the homicide will soon be known. It has seemed strange to many people ever since the first examination of certain suspects that none of the many witnesses should have seen the unfortunate man leave the vicinity of north Lee street early on the morning of December 24. According to the avowals of these witnesses they seemed to have suddenly lost sight of Curtin. It is not likely that he left the neighborhood alone or unobserved. It is more than probable he entered one of the resorts or was convoyed some where else to meet his fate, but not one of the large number of persons who were moving to and fro on north Lee street on the morning of the murder could or would tell anything of Curtin's whereabouts save that when last seen he was on that thoroughfare or one square east. The cause of the blowing of a police wistle about the time Curtin disappeared has never been satisfactorily explained. The evidence showed from which house it emanated, but the statements of witnesses was confusing, unsatisfactory and in some cases contradictory. It is possible that a difficulty started in this house which was renewed somewhere else and the murder followed. Considerable importance is still attached to what are supposed to be evidences of a murder found in the Tontine Hotel, although it is believed that the prosecution has other facts more convincing, and that the suspicious articles in possession of the police may prove to be of importance only in confirming other evidence.

School Board.

At the monthly meeting of the City School Board held last night there were present: Messrs. Stabler, Yates, Bradshaw, Thomson, Carne, Boothe, Smoot, Carter and the Superintendent. In the absence of the chairman, Mr. Carne presided.

Mr. Stabler reported that the fence on the south side of Seaton building, which had been in bad shape for some time, was being repaired at a moderate cost.

The Superintendent reported that some of the schools had been in bad condition during the month, owing to the sickness of some of the teachers and the lack of substitutes; one white boys' school had been closed for nine days and would probably be closed next week; another white boys' school had been closed for three days and one colored girls' school for two days. He stated that to "double up" the schools would be impracticable and that no boy in the principal's room was willing or able to assume the duties of teaching in one of the lower schools; that the substitutes elected by the board had secured positions elsewhere; that the board was at great loss for substitutes and that he did not know how to remedy the matter unless the board had sufficient money to pay regular substitutes so as to have them always available. He stated that the other schools were going on all right and that holiday had been given on the 22d of February.

The Superintendent was authorized to advertise for a temporary substitute.

The Garside Stock Company.

"Under Two Flags," a military comedy-drama, was presented at the Opera House last night before a good-sized audience and was thoroughly enjoyed. The drama was excellently presented, the different parts being in the hands of capable players. Pauline Seymour, as Cigarette, and Ernest Bostwick, as Louis Victor, are deserving of a great deal of praise for their clever work, while Dot E. Jewell, as Venetia, and George Warren, as Rake, deserve special mention. The drama throughout was intensely interesting, as were also the specialties. The three prize were given away the first being a handsome clock. Tonight the company will present the comedy-drama, "Dora Thorne," dramatized from the novel of that name. New specialties will be introduced and three more prizes will be awarded the first being a lovely gold bracelet. At the matinee on Saturday at 2.30 p. m. "Led Astray" will be presented, and prizes given away, the first being a child's gold bracelet.

Mayor and City Council Cited.

On the strength of the report recently made to the Corporation Court by the jail inspectors as to that institution, Judge Barley today issued a rule against Mayor Paff and each member of the City Council summoning them "to appear before the court on the 9th day of April next to show cause why a peremptory mandamus should not issue commanding them to erect a new jail for the city of Alexandria, or to cause the jail of said city to be put in good repair or rendered otherwise sufficient as the case may be, as required by law."

As stated in the Gazette recently, the jail inspectors reported that they had found white and colored male prisoners confined in the same rooms in jail and that at night several prisoners slept in one cell. It appears that the law requires one cell for each prisoner and that Judge Barley will enforce this law.

Japanese Tea.

The Junior Daughters of the Mary Custis Lee Chapter, U. D. C., will open a Japanese tea-room, Mondays and Saturdays, from 3 to 5 during March, at the Confederate Veterans' building.

Personal.

Dr. Gorman and Mr. J. C. Gates, of this city, were present in Richmond on Tuesday night at the conferring of the third degree by the Knights of Columbus in that city.

Mr. John S. Eaton last night entertained a number of friends of this city and Washington at a birthday social at his home on Duke street. They had music and games after which refreshments were served. All left for their homes much pleased with the evening's enjoyment.

Miss Flora R. Mason was the hostess at a beautiful progressive card party at her home on Princess Anne street Monday night, the guest of honor being Miss Mildred Foster, of Alexandria. During the evening in addition to cards there was music and at the conclusion of the games elegant refreshments were served. —[Fredericksburg Lance.

Mr. Frank Price is seriously ill at his home on Fairfax street.

Mr. A. D. Brockett, president of the Washington Birthday Celebration Association, has received a letter from Commissioner Macfarland, of the District of Columbia, expressing for himself and the other commissioners their thanks for the courtesies shown them during their visit to this city on the occasion of the Twenty-second of February celebration and also praising in the highest terms the parade and other features of the celebration.

Mr. C. G. Wheatley, who for some time has been connected with the Southern Railway, left here today for Lafayette, La., where he has accepted a lucrative position with the Southern Pacific Railroad.

Tonight the star Aldebaran will be occulted by the moon, that is, the moon will shut the star out from view. This will occur at about 10:35, when the star will be suddenly extinguished, as it were; about 11:30, it will reappear with equal suddenness on the other side of the moon.

Circuit Court for the County.

[Judge C. E. Nicol presiding.]

The Circuit Court for Alexandria county which has been in session during the week adjourned today for the term. The business of most interest to the people of this city was the following cases:

R. A. Phillips, vs. Great Falls and Old Dominion R. R. Co. This case was disposed of by a decree giving the plaintiff $100 and directing that each party to the suit should pay his own costs. The plaintiff was asking that the company be enjoined from using his land until it should proceed to acquire it by condemnation. The plantiff was represented by Mr. R. H. Phillips, and the defendant by Messrs. D. S. Mackall and R. W. Moore.

C. M. Adams vs. the Washington-Southern R. R. Co. involving the title to the land at the head of King street, or Hooff's Run, where the company has an overhead crossing. The court decided that the W., A. and Mt. V. R. W. Co. under which the Washington-Southern Co. holds, acquired the land under regular condemnation proceedings and dismissed C. M. Adams' bill. Mr. J. M. Johnson, represented Mr. Adams, and Mr. R. W. Moore the railroad company.

"The Clansman."

Thomas Dixon, Jr's. famous play, "The Clansman" is announced for presentation at the Columbia Theatre, Washington, for one week commencing Monday, March 5th, with Thursday and Saturday matinees. Mr. Dixon's play is a dramatization of his two novels, "The Leopard's Spots and "The Clansman," which have caused much commeht by his hold and fearless treatment of the race problem. For weeks past so much interest has been shown by the out of town patrons in the coming engagement that the management of the Columbia Theatre has deemed it necessary to receive mail orders for seats. All such orders sent in will be filled in the order of their receipt. All checks, money orders, etc., should be made payable to Luckett & Dwyer.

The Jones's Point Lighthouse.

A mixed state of affairs prevails at the lighthouse. What was supposed to be chickenpox at the house, now, it is understood, turns out to be smallpox in a mild form, and the lighthouse has been quarantined, or partially so. No danger is apprehended. Mr. F. E. Wilkins, the newly appointed keeper, who arrived here yesterday to take charge, has not as yet taken possession of the station, and will wait until the building is placed in a safe sanitary condition before he moves in with his family. Mrs. Greenwood had moved a portion of her effects to another house, further toward the city, before the sickness at the station was pronounced smallpox, but arrangements have been made for keeping the light burning at night.

Col. Caton's Generalship.

Colonel J. R. Caton, patron of the insurance bill which passed the House Monday, is the recipient of congratulations on all sides. His generalship is speeding the bill to its passage in the face of formidable opposition and steering it through the House without debate excited the admiration of the older members and the wonder of the first-term men. The forecasters in the House predicted a debate lasting from two to three days for the Caton bill.—[Richmond News-Leader.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Gilbert Price, colored, arrested by Officers Ferguson add Garvey charged with assaulting and beating Bertie Price, was fined $5.

Edward Finnegan, arrested by officer Knight charged with disorderly conduct, was dismissed.

Bertie Price, colored, arrested by Officer Garvey charged with disorderly conduct, was fined $5.

A Warning.

Mr. G. A. Nowland, deputy collector and inspector at this port, has notified the master of the B. & O. transfer tug Brewerton that in order to operate that tug the certificate of the local inspectors at Baltimore must be complied with to the letter and that the number of persons named in the certificate must be employed. It appears that the masters of several steam vessels on the Potomac are not complying with the navigation laws which Mr. Nowland now intends to enforce.

The corporation fish wharf will be offered for rent by public auction tomorrow in front of the Royal street entrance to the City Hall.

Cured Beyond All Question.

There were cures for drunkenness in the early days of this country, and from this account in the New York Gazette of May 7, 1772, we are told of a treatment that cured one patient beyond all possible question: "On Saturday last Mr. Montanny's negro man, who had misbehaved himself and was a remarkable drunkard, was sent to Bridewell and underwent the usual discipline of the house for such offenses—viz, a plentiful dose of warm water and salt to operate as an emetic and of lamp oil as a purge, in proportion to the constitution of the patient. Of these he took about three quarts of the one and two and a half spoonfuls of the other; also a gill of New England rum, which operated very powerfully, attended with a violent sickness which obliged him to lie down, and between 8 and 9 at night he was discovered to be dead. He died of excessive drinking, co-operating with discipline and medicine. Mr. Dobbs, the operator, was innocent of his taking off."

Won His Promotion.

The Duke of Clarence, afterward William IV., once received a very adroit and humorous hint which he took in very good part. He was visiting Portsmouth and inspecting the ships there when it happened that his guide over the "seventy-fours" was an aggrieved and battered lieutenant who had waited for promotion many years in vain. He seemed despised and forgotten. As this man removed his hat to salute royalty the duke observed that he was bald and said jestingly:

"I see, my friend, that you have not spared your hair in your country's service."

"Why, your royal highness," was the quick answer, "it's a wonder I have any hair left, for so many young fellows have stepped over my head."

The duke laughed and made his inspection of the fleet, but in a few days his Portsmouth guide received an appointment as captain.

The Mentone Man.

An almost perfect skeleton was found in a cave at Mentone, France, March, 1872. It showed its owner to have been a tall, well formed man, with an average skull and a facial angle of eighty-five degrees. The antiquity of this skeleton, known as the Mentone man, is undoubted. His bones are associated with those of the cave lion, cave bear and other extinct animals. All the bones were in place, surrounded by flint implements and the remains of animals which the man probably had killed. Twenty-two perforated teeth, which may have formed a chaplet, lay by his head. These bones, with the Dutchman's skull found in a cave near Engis, are the oldest specimens known of human remains and go far to prove that prehistoric races were well furnished with brain power.

A Triple Coincidence.

A correspondent of the London Standard relates the following triple coincidence, taken from an old manuscript diary, dated 1842, in which a relative quotes from an "old journal:" "In the year 1664, on Dec. 5, a boat on the Menai (Menai strait, in north Wales) crossing that strait, over which a bridge has since been built, with eighty-one passengers, was upset, and only one passenger, named Hugh Williams, was saved. On the same date, in the year 1785, was upset another boat, containing about sixty passengers, of whom all perished excepting one, whose name was Hugh Williams. On Aug. 5, 1820, a third boat met with the same disaster, with twenty-five passengers only, and all perished with the exception of one, whose name was Hugh Williams."

Boulevard and Esplanade.

Both "esplanade" and boulevard" are military terms by origin. The original "boulevard" was a bulwark or horizontal part of the rampart, and an "esplanade" was originally the glacis or slope of the counterscarp of a fortified place. A writer 200 years ago noted that the word boulevard was "now chiefly taken for the void space between the glacis of a citadel and the first houses of a town;" hence its extension to other "void spaces" suitable for promenading. The old French "esplanade" was defined by Cotgrave as "a planing, leveling, evening of ways," from Latin "explanare," to smooth or flatten out, whence the English words "explain" and "explanation."

Exact Reasoning.

Here is a bit of exact reasoning on the part of a little schoolgirl. The teacher wished to impress the idea of the wrong of idleness. He led up to it by asking who were the persons who got all they could and did nothing in return. For some time there was silence, but at last the little girl, who had obviously reasoned out the answer inductively from her own home experiences, exclaimed, with a good deal of confidence, "Please, sir, it's the baby!"

His Object.

"I can recommend you to a good lawyer."

"All right, but don't let him be too good. I'm trying to conduct my business so as to keep out of jail, not so as to go to heaven."—Houston Post.

Confession of Dynamiters.

Harry Orchard, the self-confessed dynamiter of former Gov. Steunenberg, was taken to Caldwell, Idaho, yesterday from Boise and appeared before the grand jury. He repeated his story of two unsuccessful attempts to slay the former governor. One of these attempts was an effort to shoot him at his home a week or so before the murder. A favorable opportunity did not arrive. Prior to that it seemed a bomb was laid in the pathway taken by the governor. It was arranged with a wire stretched across the path. The intended victim, however, unconsciously stepped over the wire, and never knew how close he had been to death. That was the same bomb afterwards used for killing him. The bomb was like the one laid for Justice Goddard in Denver, having a bottle of sulphuric acid so arranged that the cork would be drawn by a pull on the wire. When the successful attempt was made a long fish line was attached to the wire, the bomb being tied to the inside of the gatepost. A pull on the line fired the infernal machine and accomplished the object. The unsuccessful attempt was made in November. Orchard spent two weeks at Caldwell in that month from the 7th to the 22d. Orchard said the plot was watched by officers of the Western Federation of Miners, and that organization supplied him with money.

The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Power ul lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. Oh, it's grand for throat and lung troubles." Guaranteed by E. S. Leadbeater & Sons, druggists Price 50c and $1.00. Trial bottle free.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several does that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the Council." This remedy is for sale by Gibson & Timberman and W. F. Creighton & Co.

The soothing spray of Ely's Liquid Cream Balm, used in an automizer, is an unspeakable relief to sufferers from Catarrh. Some of them describe it as a Godsend, and no wonder. The thick, foul discharge is dislodged and the patient breathes freely, perhaps for the first time in weeks. Liquid Cream Balm contains all the healing, purifying elements of the solid form, and it never fails to cure. Sold by all druggists for 75c, including spraying tube, or mailed by Ely Bros., 56 Warren street, New York.
